# MULTILINE

Transactions: Uploading of direct debits in XML-format possible

The new SEPA format for European direct debits is now supported.

This MultiLine version supports European direct debit (SEPA Direct Debit)

The XML files can now be uploaded in the SEPA PAIN008.01.02 format via your usual MultiLine file upload function.

On the ABBLwebsite **www.abbl.lu** you will find a description of **XML SDD**

To use this new format, you must subscribe to this service. Please contact your bank adviser who will be pleased to communicate to you all required steps.

Note: The current direct debit format (DOM2000) will still be supported.
