

MULTILINE

New functions in MultiLine V2.23

1. Export to xlsx format.....	1
2. New predefined timeframes for reports	2
3. Increase of the maximum range for report printing.....	3
4. Personalization of report names.....	3
5. Improvement of report planning	4

1. Export to xlsx format

It is now possible to export a file into xlsx format once a report has been created based on statements of the type “Complete details” or “Number of extract and balance”.

2. New predefined timeframes for reports

Reports may now be printed for new timeframes.

“This year”, “last month” and “last week” have been added to existing filters.

3. Increase of the maximum range for report printing

The maximum range for report printing has been extended to 3 months (previously 1).

The screenshot shows the 'CREATE REPORT' dialog box with the 'Overview' tab selected. The 'Choose your content' section has three radio button options: 'Last received', 'From: 01/06/17 To: 31/08/17', and 'Consolidated report (last received)'. The 'From' and 'To' date fields are highlighted with a red box. The 'Choose your view' section shows 'No viewing options'. At the bottom, there is a 'Report name' field containing 'Balance overview from 01/06/2017 to 31/08/2017' and buttons for 'PDF format', 'TXT format', 'XLSX format', and 'Cancel'.

4. Personalization of report names

Personalized report names may now be defined.

This screenshot is similar to the previous one, but the 'Report name' field is highlighted with a red box and contains the text 'My Report'.

The screenshot shows a window titled 'My reports' with a sub-tab 'My scheduled reports'. It contains a table with the following data:

Description	Format	Date	Scheduled	Status
My Report		11/09/17 16:52:34	-	In progress

5. Improvement of report planning

Reports may be planned at the moment of their creation. In addition, a specific tab is now available, allowing the visualization of planned reports.

CREATE REPORT Overview

Choose your content	Choose your view
